Frigidaire alone gives you the Hydrator...

Only Frigidaire offers all these advantages: ends the need of using covered pans or dishes for vegetables—freezes ice and desserts faster with patented "Cold Control"—stays beautiful because it is semi-flexible Porcelain-on-steel inside and outside—keeps foods safely cold regardless of kitchen temperatures.

THE Hydrator is a marvelous new moist-air compartment that is now standard equipment on all household Frigidaires. Its design and location in the cabinet combine proper circulation and proper cold with correct moisture for vegetables. It makes celery brittle and delicious. It adds a new crispness to lettuce. It gives tomatoes the freshness and flavor of tomatoes just off the vine. Once you see what it does you'll marvel that a device so simple can mean so much in the kitchen.

You'll marvel, too, at the speed with which you can freeze desserts with the aid of the famous "Cold Control". And you'll like the arrangement of the Frigidaire shelves. They are spaced for tall containers and are elevated to a

wilted vegetables
fresh

THE HYDRATOR CAN ALSO BE INSTALLED IN ALL HOUSEHOLD FRIGIDAIRE NOW IN USE

The famous "Frigidaire Cold Control"

convenient height. You'll appreciate the advantages offered by the Frigidaire power unit. It is extra powerful, incredibly quiet and concealed within the cabinet—out of the way.

And you'll be delighted with the greater beauty and greater convenience of the cabinet itself. The top is smooth and flat and can be used as a kitchen shelf. And regardless of size, every household model is lustrous, rust-proof Porcelain-on-steel, inside and outside—easy to clean.

New salad recipe book—free
Find out about the many other Frigidaire features. All of this information is given in our new, free salad recipe book and our latest catalog. Mail the coupon for these books today.
