SAVOIA-MARCHETTI

AMPHIBIANS and SEAPLANES
 Are Put in the Foreground by a Background of Phenomenal Performance

THE very heart of our largest cities is invariably just a step from the water. To land so close to the centre of things greatly enhances the time-saving value of air travel. Endless delay and miles of travel from an outlying airport through congested streets are avoided. If, for no other reason, Savoia-Marchetti Amphibian is, therefore, THE IDEAL MACHINE FOR CANADIAN FLYING.

Fly to your favorite lake, river, country—visit your mining or lumber operations. You are always prepared in the Amphibian to descend on land or water. One second—one movement—lowers or raises your wheels when flying—no pontoons or wheels to worry about changing.

In the Savoia Marchetti you secure a beautifully balanced ship that is seaworthy—sea worthy. You get quick take-offs and slow landings—you get safety—speed—economy.

RESOLVED ... That winter is entirely too long

Ten Cunard West Indies Cruises ... cleverly planned to shorten winter days. Days of golden marrow-warming sun just when harassed northern America needs it ... Nerves built up and tension let down ... Big executives can barge down to play golf in the exhilarating pink magic of Nassau ... People who must cast a speculative eye at their pocketbooks can exchange a cantankerous winter fortnight for a whole sea of paint-splashed islands with Havana, Paris-wise, thrown in ... With the unbeatable holiday atmosphere of crack Cunard liners ... their relaxing comfort ... their space ... sports facilities ... smart club atmosphere. No passports required.
