

MAYFAIR GOES SHOPPING

So Popular on the Riviera!

The "Antibes" Suits and Shirts from France are to be more important than ever — New York is particularly enthusiastic over them — they look so smart, they are laundered so easily, and have such a "Frenchy" air.

Tailored in a fine mesh weave of mercerized cotton— lovely light pastel shades and in white, they are ideal for Badminton, for Winter resorts and for indoor wear.

Separate Shirts \$2.50
Complete Suits \$7.50

A barometer-clock combination is an ingenious device. This one is framed with a band of engine-turned gilt metal between inner and outer nickel frames. T. Eaton Co.

FOR A MAN'S OWN ROOM

Two waste paper baskets to fit comfortably into the masculinely inclined room. Quint old English script covers the one at left, and a colorful hunting print adorns the one at right. Chowne

A man may scoff at the luxury of these gaily colored cigarette holders in boxes to match, but nevertheless they are a distinct addition to modern smoking equipment. Ellis Bros.

Dark bronzed metal is the medium of this interesting version of the clock and desk set with its eight-day Waltham clock. Modernistic pen handles and covered compartments for stamps and blotters are unique features. Parker Fountain Pen Co.
