From the Ellis Antique Shop

This early Georgian Tea Service, with rich repoussé chasing and ivory handles, is indicative of the quality and character of the Antique Silver made available by Ellis Bros.—an authoritative guide in this most important purchase. The Tea Pot, Sugar and Cream by William Burwash are George III, hall-marked in London, 1818—the Coffee Pot, 1824. The Kettle is exquisitely hand wrought in similar design, while the effect of the whole is enhanced by the massive solid silver Tray.

Prices and photographs of Antique Tea Services as well as our booklet of authentic "Hall-marks of Old English Silver", gladly furnished upon request.
