OPENS OCTOBER 1927

IMITATION is the sincerest form of flattery." By hardly anything is this more clearly proved than by

ORIENTAL RUGS

which have for many years been copied for design by more westerly makers. Even less successful would be any attempt to reach the worth represented by a genuine Oriental: for, really, no one could equal the time, care, patience, the choice of raw material, the personal pride that goes into the making of a real Persian, Turkish, Indian, or Chinese Rug. The choicest of genuine Oriental Rugs in all Canada may be found in the Babayan collection—the result of yearly Eastern visits by Mr. Leon Babayan. You are invited to inspect it.
