## Goodrich Zippers, of course!

FASHION, stepping smartly down the Avenue these bright, chill days, displays, as a final graceful fillip to a perfect ensemble, a pair of well-cut Zippers . . . in beige, or opal, or fawn, or black.

Such perfection of gracious, unobtrusive style and snug, comfortable fit has won for

Zippers the approval of women whose example sets the mode.

Zippers come in both high and low styles, and in the season's most popular colors. There is also a stunning combination Zipper descriptively called the "Lo-N-Hi." Canadian Goodrich Co. Ltd., Kitchener, Ont.
