

### Canadian T.S.R. of Lyons Limited OPENS THE NEW CANADIAN MILL FOR THE PRODUCTION OF BROADSILKS

Lyons, France, has for generations been renowned for the weaving of lovely silks. And now Lyons experts, from the famous Tissages de Soieries Réunis, affiliated concern to the Canadian T. S. R., and known in the trade as the "King Georgette," are in Canada directing the operations of the newly-established mill at Cap de la Madeleine.

Here the exquisite T. S. R. silks are to be woven at the same moment that they are in the Lyons mills, and from

here they will be released at the same moment they step forth in Paris.

The new Canadian mill weaves fabrics specially studied to conform to the Canadian requirements in Georgette, Crepe de Chine, Crepe Canton, and in all the soft and sheer silks that delight the up-to-date woman.

Amongst all others, the Canadian T. S. R. is featuring, for its first season, two new, perfect and delightful creations; both registered and exclusive to the Canadian T. S. R.

### Crepe Martha and Crepe Vaporeuse

The same in weave, but one lighter in weight than the other, created by experts whose lives are devoted to the production of beautiful silks designed to meet the fashion requirements of the newest inspirations from Paris.

Ask for the T.S.R. fabrics when you purchase a gown or garment, or when buying silk by the piece.
