

TRIBUTES FROM GREAT ARTISTS

"... I do want you to know what an inspiration the Mason & Risch piano has been to me in all my work. The quality of tone is remarkably beautiful, the tone itself capable of the finest shading, and the touch most responsive. You are to be congratulated on bringing this instrument to such perfection."

—Gertrude Huntley.

Why they Prefer MASON & RISCH Pianos to All Others

The eminent position held by Miss Gertrude Huntley among internationally famous pianists is a matter of pride to all Canadians interested in the artistic progress of the Dominion... Miss Huntley is representative of the highest musical ideals... Her achievements at home and abroad have been triumphs for Canada.

Many of the world's greatest artists, from the now far-distant days of Franz Liszt to the present moment, have expressed their enthusiasm for the Mason & Risch Piano... Its musical superiority has resulted from correct designing combined with the use of the finest materials and of the work of craftsmen whose lives have been spent in the art of piano making.

Whether you play on the magnificent concert grand that is the delight of the concert artists or on the smallest model made by Mason & Risch, you will sense at once the reason for this instrument's popularity... Its responsive action, combined with evenness of scale and its perfect singing qualities, will charm you completely.

So splendid a musical instrument is fittingly encased only in the finest of models... It is made, however, in a variety of sizes to meet all modern demands including the conservation of space, and in different period types — Colonial, Queen Anne, William and Mary, Louis XV, and the Louis XVI design as illustrated.
